Conclusion

6. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

The Landesberg '422-B1 and 413-B2 patents are cited for their pertinent use of sonomicrometers for measuring heart distances. Unlike applicant's claimed devices and method steps, the sonomicrometers set forth by the Landesberg patents are not used to determine cardiac vectors, nor are they to be used with implantable devices, rather they are used with externally located left ventricular assist devices (LVAD)..
